

Technological lines for cables recycling

1. The small line - kompakt

For sorted cables, handy feeding

Machines in line: the mill G 300/400

The dry separating table or wet separating table
pneumatic transport and filtration

input power: 20 kW

throughput: 70 - 200 kg/hour of cables

dimension: 4 x 2 x 2,1 m.

delivery time - 3 month

2. Line G 400/600

Machines in line: the mill G 400/600

The wet or dry separating table
pneumatic transport and filtration

input power: 50 kW

throughput: 150 - 400 kg/hour of cables

dimension: 6 x 2 x 3,5 m.

Delivery time -3 - 4 month

Preshredders:

One shaft preshredder 18,5 kW

We can prepare offer according to You requirement
